as of 1st January 2017

VERLAG

TH. MANN
G m b H

1. In case of doubt, advertisements shall be called up for publication within one year of the date of conclusion of the contract.
2. Discounts in accordance with the advertisement price list shall only be granted for advertisements of an advertiser which are published within a period of one year. The period of time for orders for which a discount is granted starts with the publication of the first advertisement for which the discount is granted.
3. The advertiser has the retroactive right, if no other agreement has been made, to a discount relevant to the actual number of advertisements placed within a year, if a contract has been concluded based on the rate card which explicitly allows discounts. The claim to a discount expires if it is not asserted within three months after the end of the contractual year in question.
4. In case an order may not be executed due to circumstances for which the publisher cannot be held responsible, the customer shall have to reimburse the difference between the discount granted and the discount which corresponds to the actual amounts purchased to the publisher; any further legal obligations shall remain unaffected hereby.
5. Millimeters of text lines will be charged according to a tariff addition.
6. No guarantee will be given for the inclusion of advertisements and supplements in a certain issue or at a certain position of the printed publication. Clause 10 will be applied accordingly.
7. Advertisements which have at least on one side direct contact with editorial text will be charged with a special place addition. Advertisements which are not recognizable as such because of an editorial layout must be clearly identified as such by the publisher.
8. The Publisher reserves the right to refuse or block advertising orders – including individual requests under the terms of a contract – on the grounds of their content, origin or technical form, in accordance to the relevant objectively justified principles of the publisher. This shall also apply to orders which are passed to representatives.
9. The customer shall be responsible for timely delivery of the advertisement text and the perfect copy for printing or of the inserts. Within the limits imposed by the copy for printing, the publisher shall guarantee the print quality which is usual for the edition provided.
10. In the event of a total or partial illegible, incorrect, incomplete or untimely printing of the advertisement; the customer shall have a claim to a reduction in payment or a perfect replacement advertisement, but only to the same extent as the purpose of the original advertisement that was affected. All further liability on the part of the Publisher is exempted. In the event of faults becoming apparent only during printing, the Advertiser shall have no grounds for a claim. Complaints shall have to be lodged within four weeks of the receipt of invoice and of the respective advertiser's copy. The Publisher accepts no liability for advertisement orders placed by telephone.
11. Sample proofs shall only be supplied if expressly requested. The customer shall bear the responsibility for the correctness of the sample proofs returned. The approval to print shall be deemed to have been given in the event the Advertiser fails to return the proof within the specified period..
12. The charge shall be calculated on the basis of the actual printing height in cases where no particular specifications have been made concerning the size..
13. The invoice shall be paid within the period starting from the receipt of the invoice which is stated in the price list.
14. In the event of a delayed or deferred payment, interest to the amount of eight percent above the basic rate of interest of the Deutsche Bundesbank and collection costs shall be charged. In the event of delayed payment, the publisher may hold the further execution of the current order until payment is made, and he may demand advance payment for the remaining advertisements. In the case of insolvency or a mutual arrangement of payment, any discount will be cancelled.
15. Upon request, the publisher shall supply an advertiser's copy together with the invoice. Any advertisement excerpts, any advertiser's copy pages or any full copy sets shall be supplied in accordance with the type and extent of the advertising order. In case it is impossible to provide an advertiser's copy, it shall be replaced by a legally binding certification on the part of the publisher.
16. Charges for the preparation of printing proofs ordered in which significant modifications are made from the originally agreed versions upon the request of the customer or for which the customer is responsible, shall be borne by the customer.
17. A reduction of the average circulation shall only affect the contractual relationship if a specific circulation number was guaranteed and the decline is more than 20 percent.. If the publisher has given notice of the reduction in circulation to the customer in sufficient time for the customer to be able to withdraw from the contract before the publication of the advertisement; claims to price reductions for contracts are excluded.
18. The Publisher shall exercise the standard of care of a prudent professional for the keeping and timely forwarding of the offers received for box number advertisements. Registered and express letters as response to box number advertisements shall be forwarded with regular mail only. The Publisher reserves the right, in the interest and for the protection of the customer, to open incoming offers in order to eliminate misuse of the box number service for investigation purposes. The Publisher is not obliged to pass on business promotions and agency offers.
19. Proof-samples should only be returned to the customer if expressly requested. The obligation to keep these ends three months after expiry of the date of order unless expressly otherwise agreed upon in writing.
20. The Publisher receives and checks the advertising copy with the customary amount of care, but shall not be liable if misled or deceived by the customer.
21. The Publisher, Th. Mann GmbH, is authorized to use the customer's address for general and target group oriented market research and advertising, if the customer does not explicitly disagree against the use.
22. Advertisement orders only will be executed by the Publisher's General Terms and Conditions. Private or Business customers' Terms and Conditions do not apply unless some individual points were confirmed in writing.
23. The place of fulfillment and jurisdiction for both parties shall be the registered office of the Publisher.
